

## Test & Inspection

### Building Better Networks with aeROS™ — ROGUE™ Test Suite

#### ROGUE Carrier

ROGUE is the modular hardware platform that works seamlessly with aeRos and enables customers to pick and choose the functionality they need. Like aeRos, it is an open system built around you, for both CAPEX and OPEX savings. The Rogue carrier is ruggedly built to withstand testing in the field. It is lightweight, portable, and comes with options for carrying and/or placing it on a surface, with a convenient carrying strap and a “kick-stand”. The integrated inspection capabilities ensure that your connections are completely clean.

#### Features

- Flexible, open, and modular architecture
- Stand-alone or integrated with any Android or iOS device
- Inspection capable
- USB host and function ports
- Bluetooth and Wi-Fi connectivity
- >8 hours Li-ion battery or AC power
- Lightweight, hand-held, easy to carry to any job
