

## Laser Pointer LACO 532 green – 532 nm

The LACO 532 from LASER COMPONENTS is eye-safe even though it is a laser class 2 product. Visibility is much improved compared to conventional red pointers since the human eye is most sensitive in the green wavelength range.

The pointer is ideal for projector presentations, where red beams are often difficult to see, and is clearly visible even in strong daylight.

### TECHNICAL DATA

Wavelength	532 nm
Output power	< 1 mW
Beam divergence	< 2 mrad
Batteries	2 x "AAA"
Operating current	< 300 mA
Size	Ø 13 mm x 150 mm
Order number	846100001

12/08 / V2 / IF / divers-opto / pointer / laco-532\_e.doc
