Press Release

LWL-Symposium on October 24th

Lectures on network Roll-out and Fiber Technology

LASER COMPONENTS has set the agenda for this year's LWL Symposium. As expected, the impending 5G roll-out will be one of the dominant topics at the expert meeting on October 24th. In addition to the new mobile telecommunications standard, the participants will also discuss the latest developments in active and passive network components. The list of speakers includes representatives of industry leaders such as Kathrein and Viavi Solutions as well as renowned research institutes such as the Fraunhofer Institute and the Technical University of Munich, complemented by experts on the legal and economic aspects of broadband roll-out.

"With its third edition, our LWL Symposium has firmly established itself as an expert forum and discussion platform in the fiber optic community," says initiator Dr. Andreas Hornsteiner. "For many participants, the meeting has become a mandatory date. Above all, they appreciate the deliberately familiar atmosphere, which offers the opportunity for a lively exchange of opinions."

Trade Shows

ECOC, September 22 – 26, 2019, Dublin, Ireland, **Booth 337**
22. **Breitbandkongress des FRK**, September 23 – 24, 2019, H4 Hotel, Leipzig
Measurement World, September 24 – 26, Paris expo Porte de Versailles, France
JNPLI, September 25 – 26, 2019, Strasbourg, France
Photonex Europe, October 09 – 10, 2019, Ricoh Arena, Coventry, UK, **Booth D15**
4. **Breitbandforum Mecklenburg-Vorpommern**, Nov, 2019, Rostock, Germany, **Booth B12**
AnalytiX-2019 Europe, November 13 – 15, 2019, Berlin, Germany

The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the United States. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 230 employees worldwide.
