

### Installation of Laser Safety Curtains

## More Service for Higher Security

Laser safety is an important issue that is best taken care of by professionals. Therefore, LASER COMPONENTS not only sells EN 12254 certified Flex-Guard™ laser safety curtains, but we also offer on-site installation by specially-trained personnel.

This additional service may be requested when ordering laser safety curtains. At the appointed time, skilled assembly workers will install them at the client's facility. LASER COMPONENTS offers this service all over Germany for Flex-Guard™ safety curtains made of textile materials.

### The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the United States. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 200 employees worldwide.
