

## S315 Field Cleaver

April, 2003

# S315 Field Cleaver

### Key Features

The FITEL S315 Single Fiber Field Cleavers are designed for quick and easy field termination. The S315 Field Cleavers can accommodate 0.25mm and 0.9mm coating diameters and their small, lightweight size makes them the perfect addition to any field termination kit. The S315 field cleavers require some skill to achieve the desired cleave angle and may not be appropriate for some splicing applications.

- **FITEL's least expensive cleaver**
- **Graduated scale for various cleave length requirements**

### Specifications

Fiber Type:	Silica glass-based optical fibers, single fiber
Coating Diameter:	0.25mm and 0.9mm coated fibers
Cladding Diameter:	125µm
Blade:	Ceramic (estimated life: > 1000 cleaves)
Dimensions:	(5" L x .07" W x 1.7" H)
Weight:	2.2 oz.
Cleave Angle:	< 2° for skilled operator
Replacement Parts:	S310X-01: S315 replacement ceramic blade S310X-02: S315 replacement leaf spring
