

### For Devices manufactured by Gentec-EO

## Calibration Service for Laser Power and Energy Detectors

Do you have a certified quality management system? Then your testing equipment must be calibrated regularly to make it possible to trace the measurement and test results back to primary, national, and international standards.

LASER COMPONENTS offers a calibration service for the European market that includes thermal laser detectors, pyroelectric energy detectors and monitors manufactured by Gentec-EO.

The service includes the calibration according to a "golden standard" reference, traceable to NIST and PTB, the storage of sensitivity values and correction factors in the EEPROM of the detector, the determination of the individual wavelength profile, and a calibration certificate with the variance report. The processing time of a calibration typically lasts 5 to 7 working days.

### Trade Shows

**Breko 2017**, April 25 - 26, 2017, Messe Frankfurt, **Booth 53**

**mirsens**, April 15 - 17, 2017, Wroclaw, Polen

**Optics & Photonics Days 2017**, May 29-31, 2017, Oulu, Finland

**ANGACOM**, May 30 - June 01, 2017, Cologne, Germany, **Booth 7-B09**

**Sensor+Test**, May 30 - June 01, 2017, Nürnberg, Germany, **Booth 1-256**

**Photonex Scotland Roadshow**, June 14, 2017, University of Strathclyde, UK, **Booth S2**

**LASER World of Photonics**, June 26 - 29 2017, Messe Munich, **Booth B3.303**

**Sensors Expo & Conference**, June 28 - 29, 2017, San Jose, CA, USA, **Stand 225**

**enova Paris**, September 19 - 21, 2017, Paris, Frankreich

**Photonex Coventry**, October 11 - 12, 2017, Ricoh Arena, Coventry, Großbritannien, **Stand D15**

### The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the United States. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 200 employees worldwide.
