

Bench Guard Optical Table Containment System

All Metal LASER Safety Systems

LASER COMPONENTS' bench-mount barriers are designed for easy installation on optical benches. Available in two standard heights, 30 cm and 46 cm, and four standard widths, 30 cm, 46 cm, 60 cm and 92 cm.

Custom widths can be created using optional H-channel connectors. Includes thumb screws for mounting.

Specifications

- Black anodized metal with light-diffusing texture to absorb and diffuse laser beams
- This system is designed to withstand laser energy levels up to 1200 W/cm² for at least 180 seconds.
- CE EN12254 DI AB7 KTK 190 - 10600 nm
- Textured surface provides extra light diffusion
- Works with all LASER wavelengths
- Clean room friendly

30.00 cm Height Barriers

30.00 cm x 30.00 cm (w x h)	PT-EB1212
45.72 cm x 30.00 cm (w x h)	PT-EB1812
60.00 cm x 30.00 cm (w x h)	PT-EB2412
91.40 cm x 30.00 cm (w x h)	PT-EB3612

45.72 cm Height Barriers

30.00 cm x 45.72 cm (w x h)	PT-EB1218
45.72 cm x 45.72 cm (w x h)	PT-EB1818
60.00 cm x 45.72 cm (w x h)	PT-EB2418
91.40 cm x 45.72 cm (w x h)	PT-EB3618
