

Repair of Thermal Power Detectors

European Support Centre for Gentec-EO

Gentec-EO has appointed LASER COMPONENTS as an authorised repair centre for their measuring instruments. This strengthens the company's position as the main European support partner for the Canadian manufacturer.

Since 2004, the family-owned company from Olching has been operating one of the world's three Gentec-EO calibration centres for laser and power measurement devices and has established itself as a Europe-wide technical support partner. Minor maintenance work had already been carried out as part of this calibration and adjustment service. Now, LASER COMPONENTS has expanded its capability. In future, defective power detectors can be repaired directly in Germany. Employees qualified by the manufacturer have access to an extensive stock of original spare parts.

Trade Shows

LaSys, June 05 - 07, 2018, Messe Stuttgart, Germany, **Booth 4C33**
ANGACOM, June 12 - 14, 2018, Messe Köln, Germany, **Booth 7.B09**
Photonex Edinburgh, June 14, 2018, South Hall Complex, University of Edinburgh, UK, **Booth S5**
automatica, June 19 - 22, 2018, Messe München, Germany, **Booth B5.501**
Sensor+Test, June 26 - 28, 2018, Messe Nürnberg, Germany, **Booth 1.256**
Sensors Expo & Conference, June 27 - 28, 2018, San Jose, CA, USA, **Booth 225**
SPIE Optics+Photonics, August 19 - 23, 2018, San Diego, CA, USA, **Booth 527**
Photon 2018, September 04 - 05, 2018, Aston University, **Booth 5**
SPIE Security & Defense, September 11 - 13, 2018, Berlin, Germany **Stand 403**
Photonex Europe, October, 10 - 11, 2018, Ricoh Arena, Coventry, UK, **Booth D15**
Vision, November 06 - 08, 2018, Messe Stuttgart, Germany, **Booth 1G31**
electronica, November 13 - 16, 2018, Messe München, Germany

The Company

LASER COMPONENTS specialises in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the United States. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 220 employees worldwide.
